**JUST ANNOUNCED TODAY**

# AI for the Complete Operations Management Lifecycle

## INVENTORY

### Voice-Based Inventory

Stop counting inventory manually—Voice-Based Inventory allows you to move around the kitchen without stopping to type, making inventory run smoother

## INSIGHTS

### AI Analyst

With AI Analyst, anyone on the team can get answers, not just the data-savvy ones by just asking a question

## OPS EXECUTION

### Photo Intelligence

Instantly spot execution issues across your entire organization with Photo Intelligence

## OPS EXECUTION

### AI Actions

Instantly transform insights into action across all your locations with AI Actions, and quickly identify any execution issues
