

PRODUCT FEATURES AND SERVICES

Benefits of a Unified eClinical Suite

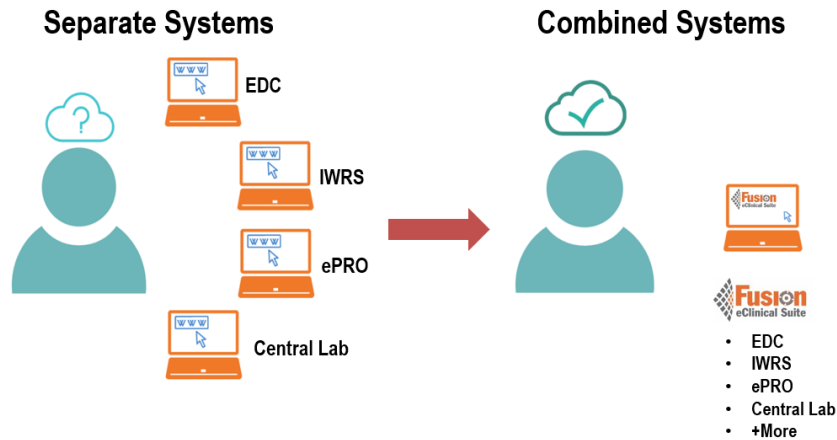

Fusion eClinical Suite: a 'truly unified' eClinical platform for your study.

With a Unified eClinical Platform you can empower your organization with data-driven studies on a centralized system that delivers faster and smarter results!

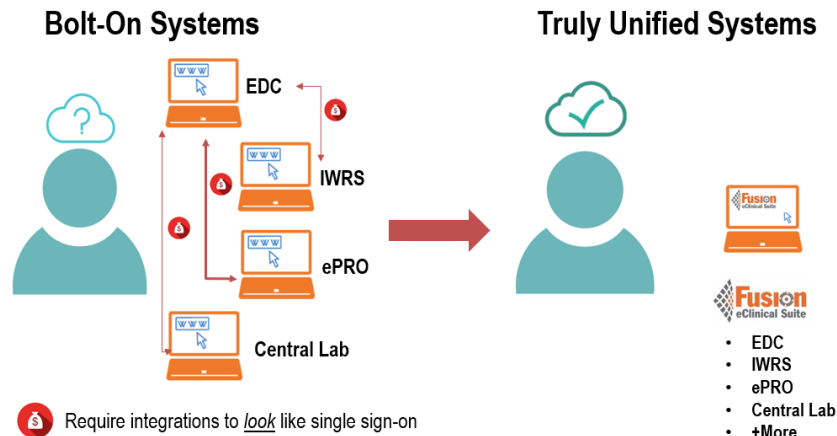

1. Characteristics of a truly unified platform.

Enable collaboration and enhanced results through Real-Time Actionable Data.

STUDY TECHNOLOGY APPROACHES

INTEGRATION VS TRULY UNIFIED

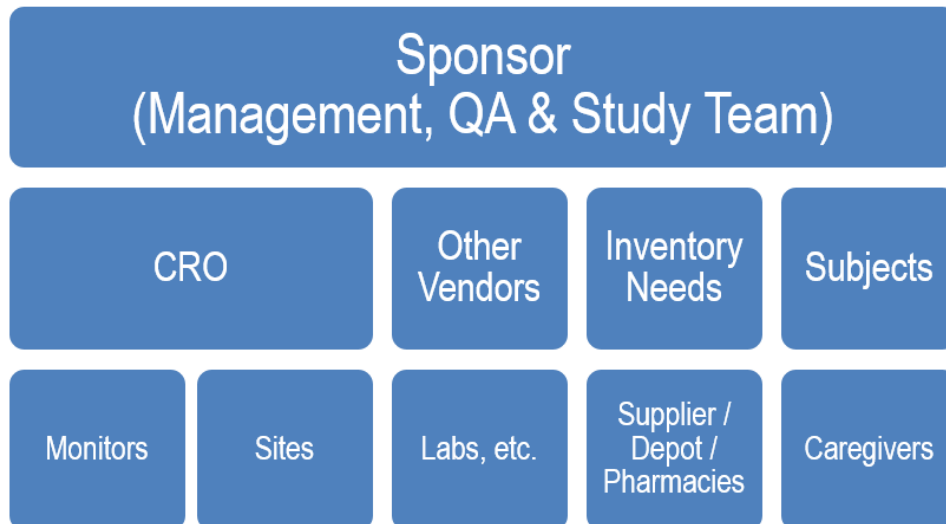

KEY FEATURES OF A UNIFIED PLATFORM

2. Benefits to each Stakeholder.

A centralized team allows for the focus of the design phase to be bringing together and meet all stakeholder needs.

3. Manual Task Automation.

Tasks can be executed automatically across modules.

AUTOMATION OF WORKFLOWS & STUDY TASKS

- ✓ Site Start-Up
- ✓ Screening, Enrollment and Dosing
- ✓ Safety / Medical Review
- ✓ Study Metrics

SITE START-UP AUTOMATIONS

- ✓ Track activity from site consideration through contract completion
- ✓ Milestone Planning / Forecasting
- ✓ Track and Collect all key site information
 - Key Dates
 - Documents
 - Approval statuses
- ✓ Use to activate Shipments of IP, Site Activations, Enrollment Caps, etc.

SCREENING, ENROLLMENT & DOSING

Simple to complex enrollment, fully integrated and linked to inventory.

- ✓ Real-time dynamic randomization & cohort activation and dose selection
- ✓ Manage enrollment at study, site & subject levels
- ✓ Managing subject replacements (DLT assessment duration not met)
- ✓ Eligibility requirements tailored to fit your protocol and inventory needs
- ✓ Visualize enrollment progress with dashboards and configurable reports

SAFETY / MEDICAL REVIEW

- ✓ Real-Time Patient Profile Reports

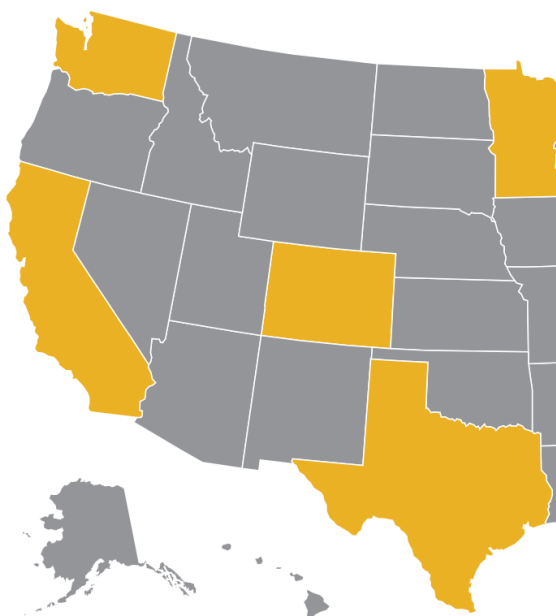

Time of Report: 3:52 PM EST

Site:	504 - Lakefront	Subject#:	504-101	Initials:	ABC	Age:	75
Sex:	Female	Race:	White	Ethnicity:	Not Hispanic or Latino		

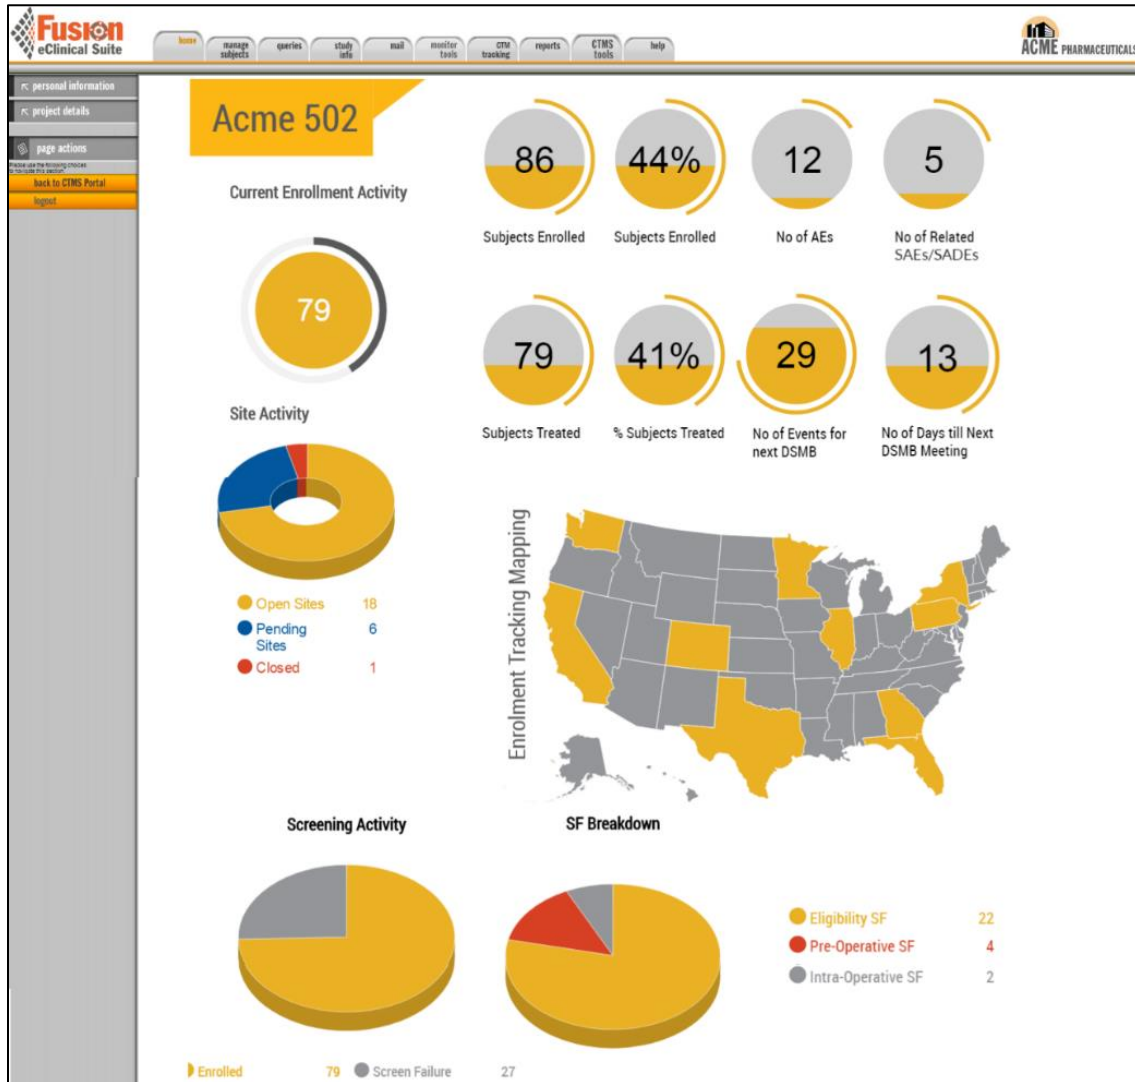

Dose Level:	Cohort 1	Date of First Dose	11/Jun/2014	Days Since First Dose	650
Subject Status:	Enrolled	Date of EOS Discontinuation		Reason for EOS Early Discontinuation	

AE #	Adverse Event	Onset Date	Resolution Date	AE Grade	Relationship to Study Drug
AD-504-101-A-01	Dehydration	26/Jun/2014	02/Jul/2014	Grade 1	Possibly Related
AD-504-101-A-02	Bilateral lower extremity aching	18/Jun/2014	09/Jul/2014	Grade 1	Possibly Related
AD-504-101-A-03	Erythema Right Thigh	16/Jul/2014	23/Jul/2014	Grade 1	Probably Related

Date of Collection	Na+	K+	Chloride	Bicarb	Creatinine	BUN	Glucose	Albumin
	Normal Range: 135 - 147 mEq/L	Normal Range: 3.5 - 5.0 mEq/L	Normal Range: 98 - 108 mEq/L	Normal Range: 22-28 mmol/L	Normal Range: 0.7 - 1.3 mg/dL	Normal Range: 8-20 mg/dL	Normal Range: 70-110 mg/dL	Normal Range: 3.5 - 4.7 g/dL
28/May/2014	139.0	4.0	101.0	25.0	0.8	16.0	50.0	4.1
11/Jun/2014	138.0	3.9	99.0	26.0	0.8	16.0	162.0 H	3.9
09/Jul/2014	133.0 L	4.2	94.0 L	27.0 H	0.7	16.0	92.0	4.1
06/Aug/2014	136.0	4.5	96.0 L	26.0	0.8	11.0	58.0	4.2

VISUALIZE KEY STUDY METRICS

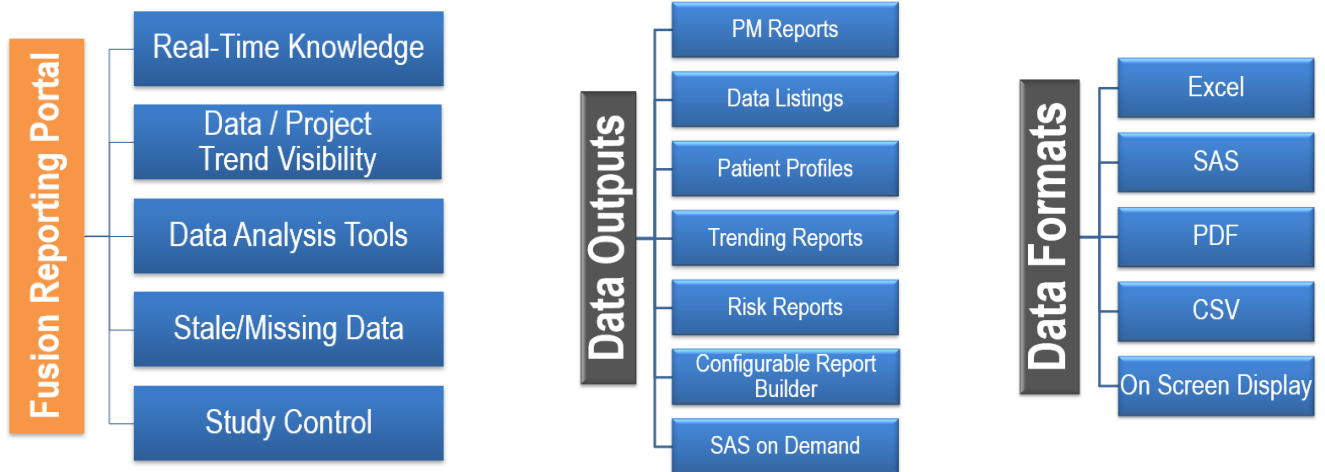

4. Visibility & Risk Management / Mitigation.

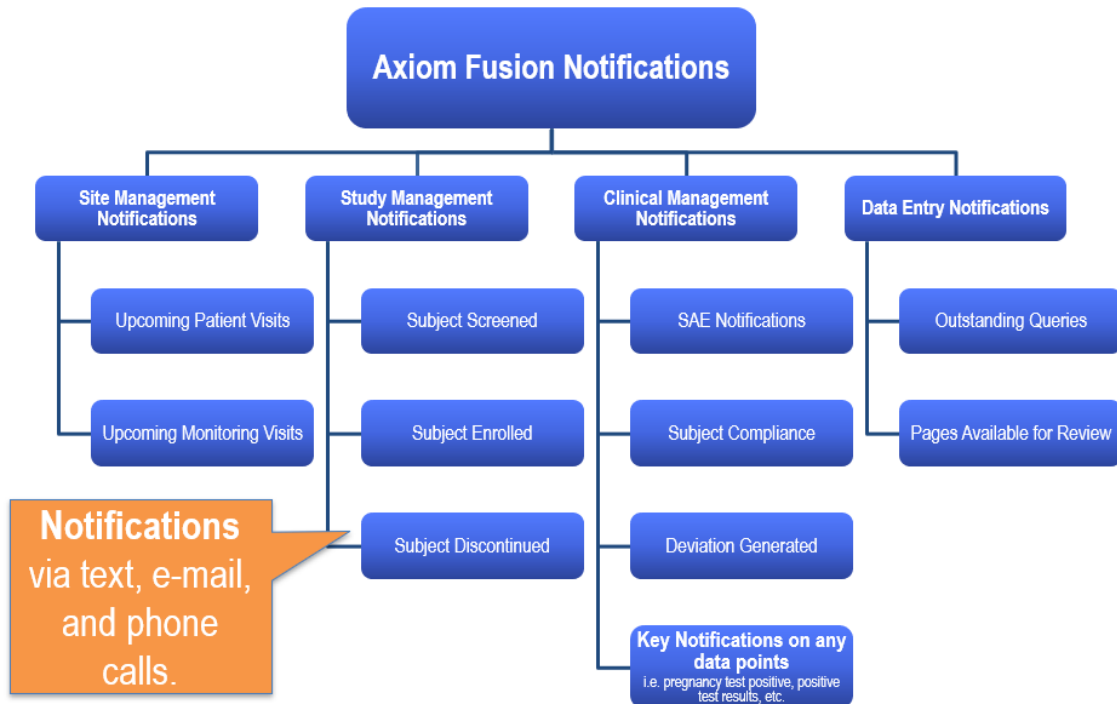

Technology to better manage your studies.

INSTANT ACCESS TO YOUR STUDY DATA

REAL-TIME, DIRECT DATA ACCESS 24/7

NOTIFICATIONS FOR KEY ACTIVITIES

know more. know it sooner. act faster.
