**PRODUCT FEATURES AND SERVICES**

# Global Randomization and Inventory Awareness

## Fusion is your Connected Hub for all study data.
Axiom provides both the platform to randomize and track inventory data as well as guided support and monitoring of all RTSM activities throughout the Study Lifecycle.

## Fusion RTSM Tools:
**Simple to complex randomization, fully integrated and linked to inventory.**

- ✓ Central vs Site-specific Randomization & Randomization / Kit List generation
- ✓ Stratification and Cohort Management
- ✓ Randomization caps at Study, Site & Strata-levels
- ✓ Managing subject replacements
- ✓ Eligibility requirements tailored to fit your protocol and ensure sufficient inventory
- ✓ Visualize enrollment progress with dashboards and configurable reports
- ✓ Our RTSM Team will support and monitor all RTSM activities throughout the Study Lifecycle

## Global Inventory Awareness:
**Including inventory levels, requests, shipments, and pending activities.**

- ✓ **Program-Wide Inventory:** Investigational Product and Ancillary Supplies Management, Inventory pooling and forecasting
- ✓ **Study/Depot Inventory:** Depot Integration, Depot Threshold Monitoring, Expiry Management, Final Disposition / Inventory Returns
- ✓ **Site Inventory:** Automated Requests (Site-specific Thresholds / Upcoming Visits) with manual overrides, Shipment Reminders to reduce stale data, Quarantine Management, Site-to-Site Transfers
- ✓ **Accountability:** Dispensing Activities (Site and Subject-Level), Kit / vial-level vs. tablet / volume-level accountability, Single and multi-use devices
- ✓ **AI-Driven Auto Resupply:** Supply needs are more than just a dispensing schedule

**know more. know it sooner. act faster.**

| Study Level Metrics | Study Start-Up | Demographics | Data Cleaning-Detailed | Project Management | Inventory |

**Inventory Status by Site (Study Bottle 50mg 30-count)**

Legend:
- In Stock
- Quarantined
- Assigned & Dispensed
- Disposed & Returned

Chart data (by site):
- 101: 9
- 102: 8
- 104: 21
- 117: 27, 15, 38
- 130: 6

Sites: 101, 102, 104, 105, 117, 119, 120, 121, 122, 130

## Visualize everything

- ✓ Real time reports on your RTSM & Inventory data
- ✓ Immediate access to your global, study and local throughout the Study Lifecycle
- ✓ Accessible 24/7
- ✓ All underlying transaction data immediately loadable

## RTSM Team and Technology

- ✓ Complete guided support
- ✓ Support and monitoring of all RTSM activities throughout the Study Lifecycle
- ✓ Walk through the entire workflow of Randomization and Inventory Management
- ✓ Constant support over the course of the study
- ✓ Axiom's RTSM team can manage your depot
- ✓ Complete Depot contracting

## AI-Driven Auto-Resupply

**Fusion AI-Driven Review**

✓ Requests can be raised for supplies based on a multitude of factors including:

✓ Current Inventory: Fusion accurately captures the sites current inventory including CTM in transit / pending site receipt, upcoming expiries and accountability / returns

✓ Site Thresholds: Set resupply levels for buffer inventory / safety stock at the site-level and adjust in real time

✓ Anticipated / Upcoming Needs: Based on historical and scheduled activity

## Global Inventory Awareness
