After an enforced break from physical conferences, this panel looks at global post 2020 trends. Are courts fully back to normal? Are there back logs? If Courts went 'online', will this be retained? What impact did the pandemic have on asset recovery litigation – and what is the near and medium term future likely to bring?

We will hear from lawyers under 10 years' call what their thoughts are on the future – what kind of cases will dominate the future? ## Welcome Refreshments

09:20 - 09:30

## Chairs' Opening Remarks

09:30 - 09:40

## Participants

David Standish - Partner, KPMG

---

## Back to basics...

09:40 - 10:20

This panel considers how trustees, liquidators and administrators can be appointed in each of the panellists' jurisdiction. Our panellists will discuss what the legal requirements are to commence an insolvency process, who has the power to commence the process, how quickly it can be done, what challenges can be brought, and whether insolvency or similar processes (such as receiverships) are available pre-judgment.

---

## Refreshment Break

10:20 - 11:00

---

## Zombies and phoenixes – insolvency in a post-Covid world

11:00 - 11:40

This panel discusses how the pandemic has affected insolvencies in their jurisdiction, from amnesties to business as usual, what effect any legislative interventions will have, such as a bottle neck of insolvencies waiting to happen, and the future landscape of both domestic and cross border insolvencies.

---

## Ask the funder...

11:40 - 12:20

With a recession likely looming, litigation and insolvencies may pick up in the coming months. But unlike in the years post 2008, the insolvent entities are unlikely to be banks and funds. Will these disputes be funded? What risks will funders take, and what will they turn away? Can funding help in jurisdictions where lawyers cannot enter into CFAs? This panel offers the audience the opportunity to ask funders everything you ever wondered, but have not dared to ask...

---

## Lunch

12:20 - 13:30

---

## Law with and without borders

13:30 - 14:10

Asset recovery is frequently cross border. This panel discusses their regime for the recognition and enforcement of foreign judgments, awards and insolvencies, practical challenges that practitioners face, and how to solve these.

---

## Litigation vs insolvency – cast your vote

14:10 - 14:50

For this panel, we have two teams. Our lawyers will try to persuade you that litigation is usually the better route to recoveries, and our insolvency practitioners will aim to convince you that insolvency is the better option. At the end of the panel you cast your vote.

---

## Refreshment Break

14:50 - 15:20

---

## When it gets personal... high value personal bankruptcies

15:20 - 16:00

This panel discusses high value personal bankruptcies – how do they differ from corporate insolvencies, legally and practically? What are the challenges in dealing with individual bankrupts, and how can insolvency practitioners deal with these?

---

## Chair's Summation & Close of Conference

16:00 - 16:50

## Participants

David Standish - Partner, KPMG
