

How to record your PowerPoint presentation with Zoom

General Guidelines:

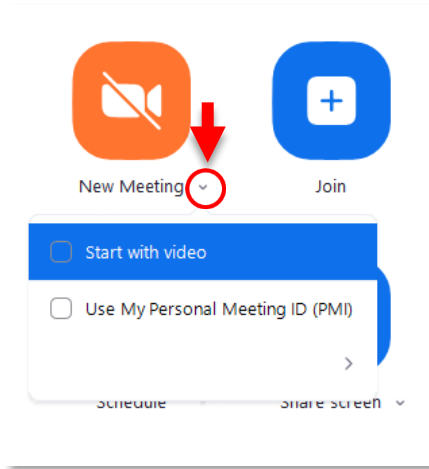

- Presentations should be no longer than the given time of your actual presentation timeslot and should be formatted by 16x9.
- Please save your file as an **mp4 video file** and review your final recording for length before uploading.
- Please introduce yourself at the start of your presentation and recording.
- If you are recording with webcam switched on, please have your camera window in the lower left or lower right corner of your screen.

Tips & Tricks:

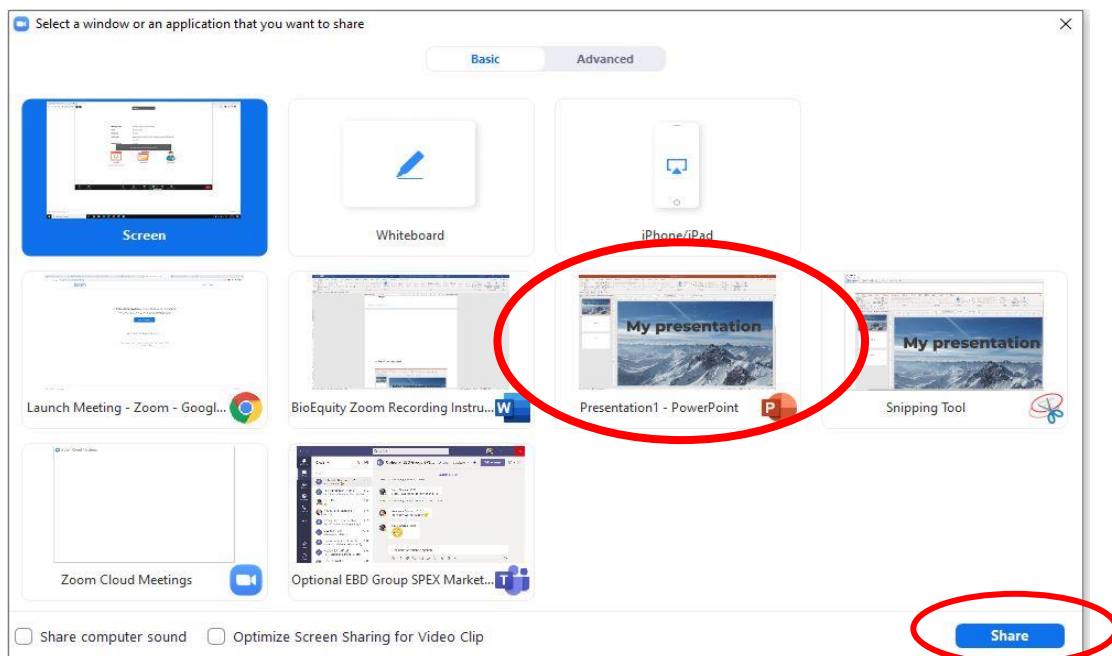

- You will get best audio results using a headset.
- Don't position your microphone directly in front of your mouth.
- Prepare notes, if possible.
- Switch off your computer and phone notifications and avoid background noise.
- Webcam should be positioned at eye level.
- Set up soft lightning to frame your face coming from the direction of the camera.

Recording Your Presentation

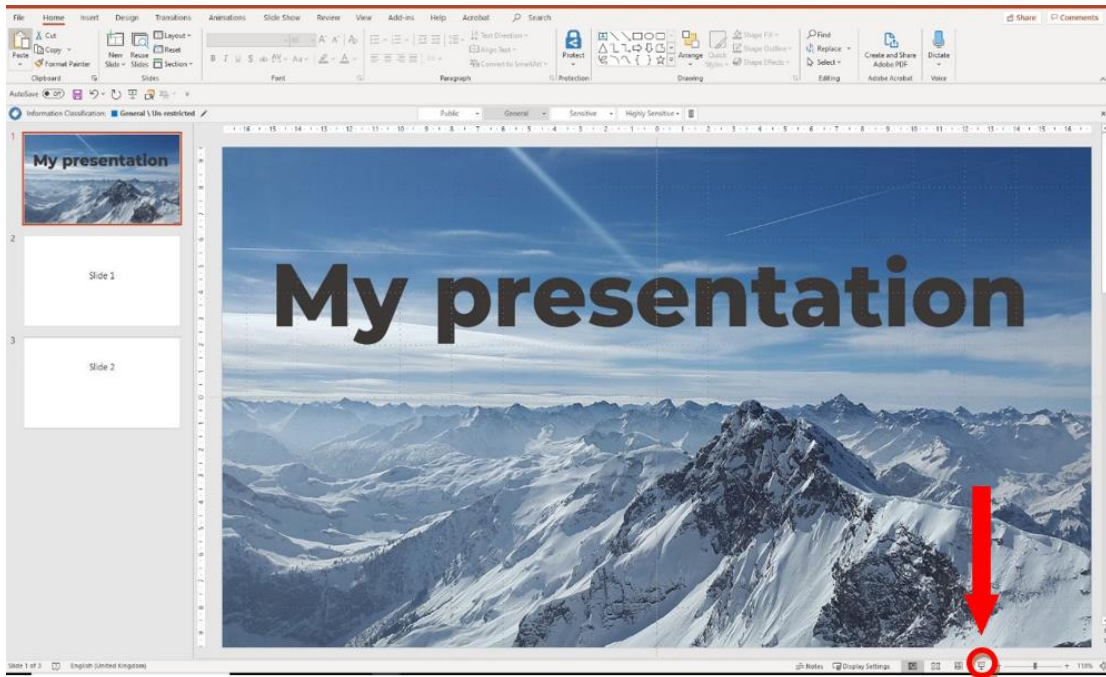

- ✓ Open the Zoom app and sign in if prompted.
- ✓ From the Zoom Home tab, choose one of the below options to start a new meeting:
 - Start without video (no webcam) - uncheck 'Start with video'.
 - Start with video (includes webcam) - check 'Start with video'.

- ✓ Next, click 'Share Screen'  in the meeting controls.
- ✓ Choose your PowerPoint presentation screen and then click 'Share'.

✓ **Play** [] your PowerPoint presentation/start Slide Show

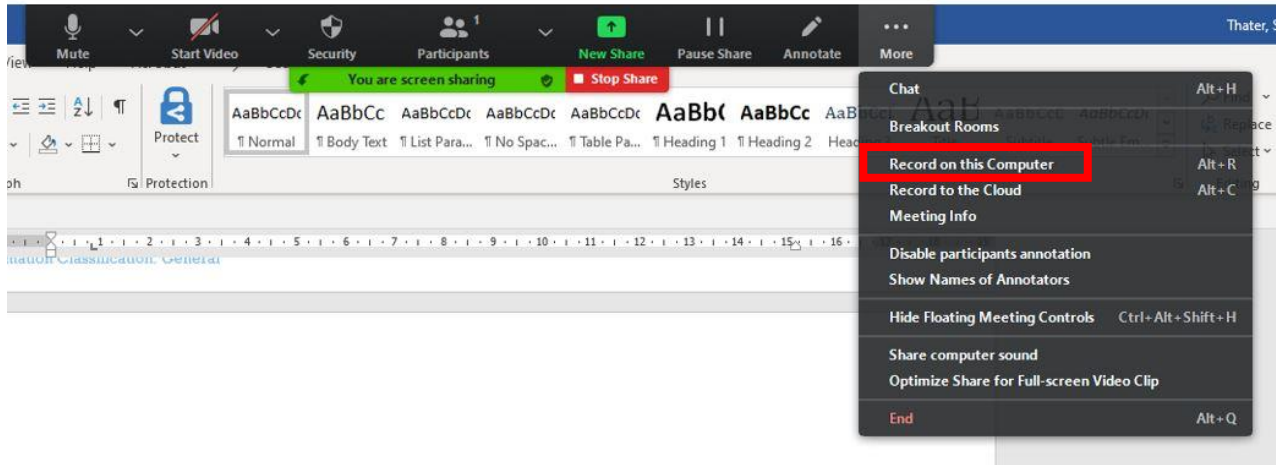

- Please check that you are sharing the Slide Show view and not the Presenters view. The green border indicates the monitor you are currently sharing.
- If you are not sharing the correct monitor, click '**Display Settings**' then '**Swap Presenter View and Slide Show**'.

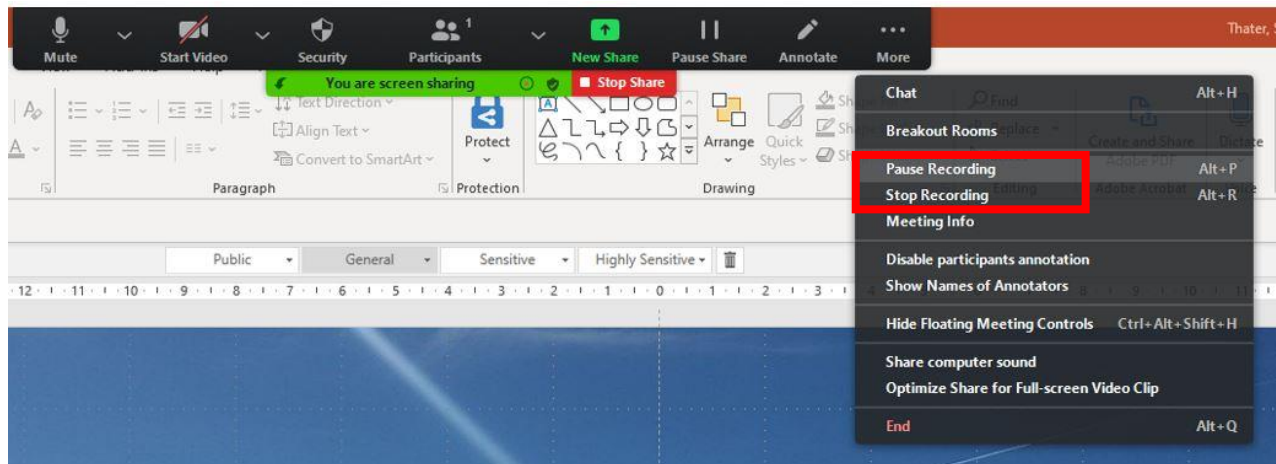

- Please make sure that the thumbnail image of your camera window does not obstruct the presentation content.

Recording Instructions

- ✓ When you are ready, move your cursor towards the top of the screen on the Zoom toolbar, click on the 3 dots and select **'More'**, then click **'Record on this Computer'**.

- ✓ From the Zoom toolbar you will be able to pause or stop the recording by clicking on **'More'** and then choose either **'Pause'** or **'Stop Recording'**.

- ✓ Once you have stopped your recording, click on **'Stop Share'**, **'End Meeting'**, then click **'End meeting for All'**.
- ✓ New pop up window will open that will start to convert meeting recording. Please choose the location to save the video file (mp4).
