

## The future of gene therapies

On demand  
Business Development Track

This roundtable will discuss gene therapies on a broad scale and dig deeper into issues around safety and how this key issue will affect the future development of gene therapies.

### Participants

**Moderator: Sarah Jims** - Principal, Triangle Insights Group

**Panelist: Regina Hodits** - Managing Partner, Wellington Partners

**Panelist: Tomas Landh** - Innovation Sourcing VP, Senior Principal Scientist Search and Evaluation, Novo Nordisk

**Panelist: Samir Ounzain** - CEO & Scientific Co-founder, HAYA Therapeutics SA

## The hot spot: advancements in neurodegenerative disease therapeutics

On demand  
Therapeutic Track

### Participants

**Moderator: Christian Jung** - Partner, The Dementia Discovery Fund - SV Health Investors

**Panelist: Gil Bar-Nahum** - Managing Director, Jefferies

**Panelist: Fiona Elwood** - Head of Neuroscience, Novartis Institutes for Biomedical Research (NIBR)

**Panelist: Lidia Pieri** - CEO, Sibylla Biotech

**Panelist: Thomas Zioncheck** - Head of Neuroscience, Ophthalmology and Rare Diseases, Pharma Partnering, Roche

## Talent: finding it, developing it, keeping it

On demand  
Biotech Ecosystem

The pandemic has impacted almost every facet of life and work culture perhaps most of all. Finding and retaining skilled workers, whether it be in the lab or at the deal table is proving more difficult. How can companies, big and small, create cultures of inclusivity, support development of their staff, and grow the next generation of biotechnology leaders.

### Participants

**Moderator: Mandy Jackson** - Managing Editor, US Commercial News, Scrip and The Pink Sheet, Informa Pharma Intelligence

**Panelist: Sabine Dandiguan** - Managing Partner, Jeito Capital

**Panelist: Didier Malherbe** - Chairperson, BCI Pharma

**Panelist: Emma Thorp** - Chief Growth Officer, RBW Consulting

## Connecting the disconnects: building companies, developing drugs for women's unmet medical needs

On demand  
Business Development Track

This roundtable will explore solutions to the different pinch points in the development of making drugs for women, not only women-specific diseases but also diseases that predominantly affect women. From a dearth of basic research and identified therapeutic targets to a chronic lack of innovation and investment, there are signs of a sea-change in all these areas due to a renewed awareness of the potential in this market. What are the first steps we can take to address the unmet medical needs of more than half of the world's population?

### Participants

**Moderator: Diana Torgersen** - Senior Associate, NovoSeeds

**Panelist: Marcel Duin** - VP, Global Head of Business Development Search & Evaluation and Pre-Clinical, Organon

**Panelist: Chandra Leo** - Investment Advisor, Private Equity, HBM Partners

**Panelist: Julia Owens** - previously CEO, Millendo Therapeutics

## Compelling deal making in a competitive oncology market

00:45 - 01:45  
Therapeutic Track

### Participants

**Moderator: Hemmie Chang** - Partner, Co-Chair, Life Sciences Group; Chair, Licensing & Strategic Alliances Practice, Foley Hoag

**Panelist: Khatereh Ahmadi** - Executive Director, Business Development and Licensing, MSD

**Panelist: Brian Heaphy** - VP, Head of Corporate Development, Bristol Myers Squibb

**Panelist: Philippe Lopes-Fernandes** - Executive Vice President and CBO, Ipsen

## Datasharing for collaboration

On demand  
Biotech Ecosystem

This session will examine at how data sharing between institutions, companies and across boarders impacts R&D, clinical trials and other elements of drug discovery and development. What infrastructure and harmonization of health research and systems can increase the efficiency and impact of life science knowledge building and collaboration?

### Participants

**Moderator: Kathleen Snyder** - Technology Transactions Group, Wilson Sonsini Goodrich & Rosati

**Panelist: Danny Bar-Zohar** - Global Head of Development, Merck Healthcare KGaA

**Panelist: Peter Mesenbrink** - Executive Director of Biostatistics, Novartis

**Panelist: Ray Pinto** - Director for Digital Transformation, DIGITAL EUROPE

**Panelist: Manu Vohra** - Managing Director, Box

## How to build an innovative pipeline

On demand  
Business Development Track

### Participants

**Moderator: Hubert Birner** - Managing Partner, TVM Capital Life Science

**Guest: Cord Dohrmann** - CSO, Evotec

## Introducing...Karin Conde-Knape

On demand  
Business Development Track

### Participants

**Moderator: Paul Tunnah** - Chief Content Officer & Managing Director UK, Healthware Group

**Guest: Karin Conde-Knape** - SVP, Global Drug Discovery, Novo Nordisk

### RNA: applications and growth of a new modality

01:45 - 02:45  
Therapeutic Track

The success of the mRNA vaccines has seen surge of interest in RNA technologies. This session will explore some of the non-COVID related therapeutics currently in development, which address other viral diseases such as the flu but also conditions in other therapeutics areas such as oncology.

#### Participants

**Moderator: Anthony Davies** - Founder & CEO, Dark Horse Consulting

**Panelist: Lauren Young Mi Lee** - Head of Global R&D Innovation, Executive VP, Hanmi Pharm. Co.

**Panelist: Vincenza Pironti** - Global SME, Steriles, ThermoFisher Scientific

**Panelist: Mike Watson** - Director and Executive Chairman, VaxEquity

### Global Health: Partnering for a global win-win

02:00 - 03:00  
Biotech Ecosystem

The pandemic has made obvious like never before that healthcare at a global level affects the health of everyone at an individual level. This session will discuss how partnership across borders and sector divides can increase R&D to meet global unmet medical needs and increase access for underserved populations, even in disease areas and technologies that may not see huge commercial returns. Concentrating largely on vaccine provision and the increasing danger of AMR, how can industry, researchers, and public bodies combine efforts for effective interventions?

#### Participants

**Moderator: Phyllis Arthur** - VP, Infections Disease & Diagnostics Policy, Biotechnology Innovation Organization (BIO)

**Panelist: Amy Finan** - CEO, Sabin Vaccine Institute

**Panelist: Penny Heaton** - Head of Vaccines, Johnson & Johnson

**Panelist: Fatema Rafiqi** - AMR Benchmark Research Programme Manager, Access to Medicine Foundation

### Exploring the Rentschler Biopharma – Vetter Strategic Collaboration

On demand  
Business Development Track

#### Participants

**Moderator: Lucie Ellis** - Executive Editor, In Vivo, Informa Pharma Intelligence

**Guest: Patrick Meyer** - Senior Director Business Development, Rentschler Biopharma

**Guest: John Moore** - Director, Global Clinical Business Development, Vetter Pharma

### How to speed your time to IND/IMP: A fireside chat with Thermo Fisher

On demand  
Business Development Track

Now more than ever, we need to evolve to enable a faster pace to market. Balancing speed, flexibility and future needs is a challenge when meeting critical milestones. The pressure to file an IND makes accelerated Phase 1 safety testing a priority. Fernando Rieken, Director Operations, Thermo Fisher Scientific will share his expertise on best practices to follow in biologics development from early development stage through to commercialization. Find out how Thermo Fisher's new, integrated early development solution, Quick to Clinic™, designed for biotech companies, can accelerate and optimize your early development process to get you to clinic quickly while being thoughtful about risk and future scale-up.

#### Participants

**Speaker: Fernando Rieken** - Director of Operations, ThermoFisher Scientific

### A new light on autoimmune diseases

02:45 - 03:45  
Therapeutic Track

The emergence of Long COVID has raised the profile of autoimmune diseases and has spurred research into the area in general. There is continued uncertainty about the causes of many of these diseases and their often chronic nature makes even diagnosis difficult. What are currently the most promising areas of research? What insights has COVID research suggested for other conditions? How has increased awareness around these conditions impacted research and clinical development?

#### Participants

**Moderator: Mark Riviere** - General Partner, TVM Capital

**Panelist: Ajay Nirula** - VP, Immunology, Eli Lilly & Co

**Panelist: Elsy Boglioli** - Founder and CEO, Bio-Up

**Panelist: Alex LeBeaut, MD** - CEO, Institute for Advanced Clinical Trials for Children (I-ACT)

### Exploring Korea's coordination of COVID-19 measures and vaccine development

On demand  
Biotech Ecosystem

#### Participants

**Moderator: Jung Won Shin** - Senior Reporter, Pharma Intelligence

**Speaker: Young Mee Jee** - CEO, Institut Pasteur Korea

### Trends, challenges and opportunities in bispecific antibodies

On demand  
Business Development Track

As development of bispecific antibodies gathers speed, companies need to contend with a new group of development and manufacturing challenges. In this session Linda Pullan will speak with Katarina Radošević, Global Head of Biologics R&D at Lonza about trends in bispecific research and development, the hurdles and opportunities they present, and how young companies can optimize their development approach.

#### Participants

**Moderator: Linda Pullan** - Founder, Pullan Consulting

**Speaker: Katarina Radošević** - VP, Head of Bio R&D, Lonza

### Exploring the EVERSANA - Shorla Pharma partnership

On demand  
Business Development Track

Launching in today's unpredictable market is a journey with new challenges around every corner. While the oncology pipeline is rapidly growing, stringent competition and an evolving provider environment are putting intense pressure on manufacturers to build effective commercialization infrastructures and launch products at unprecedented speeds, which comes at a steep price.

In this session Shorla Pharma, a specialty pharmaceutical company, will share their partnership journey with EVERSANA to bypass the traditional commercialization model and share their vision of an integrated model that's streamlined, maximizes brand value and improves patient access and outcomes.

#### Participants

**Moderator: Susanna Ling** - Director, Business and Content Development, EBD Group

**Speaker: Sharon Cunningham** - CEO, Shorla Pharma

**Speaker: Mike Ryan** - Executive VP, Europe, EVERSANA

# SESSIONS

ON DEMAND SESSIONS

BIO-Europe

October 25–28, 2021  
Delivered Digitally  
Central European Time

## A global approach to rare disease

On demand  
Therapeutic Track

The defining feature of rare diseases is the small patient populations but these conditions have no geographical borders. As awareness and interest into rare disease treatments increases around the world, what are the barriers and benefits of working across borders to ultimately provide treatments to patients? What role does datasharing play in facilitating improved diagnostics and clinical trials? How can patient communities continue to grow their voices and their involvement irrespective of geographical divisions and what role can industry play in this process?

### Participants

**Moderator: Craig Martin** - CEO, Global Genes

**Panelist: Chris Tovey** - Executive VP, COO and Managing Director, Europe and International, Jazz Pharmaceuticals

**Panelist: Shawn Xiang** - CEO, Rarestone Group

## Innovation hand-in-hand - a conversation with the leaders of Novartis R&D about what it really means to be a 'partner of choice'

On demand  
Business Development Track

### Participants

**Speaker: James Bradner** - President, Novartis Institutes for BioMedical Research (NIBR)

**Speaker: John Tsai** - Head of Global Drug Development and Chief Medical Officer, Novartis

## How Data Science is Driving Innovation: In conversation with Najat Khan, Chief Data Science Officer, Janssen R&D, Johnson & Johnson

On demand  
Biotech Ecosystem

### Participants

**Moderator: Paul Tunnah** - Chief Content Officer & Managing Director UK, Healthware Group

**Speaker: Najat Kahn** - Chief Data Science Officer and Global Head, Janssen R&D Strategy & Operations, Johnson and Johnson

## Growing External Innovation – Partnering within the biotech ecosystem to foster innovation in neuroscience

On demand  
Business Development Track

### Participants

**Moderator: Mike Ward** - Global Head of Life Sciences and Healthcare Thought Leadership, DRG, part of Clarivate

**Guest: Sahaj Madhav** - Director, Business Development, Amgen

**Guest: Carol Suh** - Partner, ARCH Venture Partners

## Diversifying your funding options is key to startup success

04:50 - 05:35  
Business Development Track

What type of funding is best suited to you? VC's are not always the perfect fit and the right route to take when looking for funding sources to start a successful company. This panel will explore alternative funding sources.

### Participants

**Moderator: Bonnie van Wilgenburg** - Principal, Monograph Capital Partners

**Panelist: Laura Fletcher** - Head of Business Development and Strategic Partnerships, Deep Science Ventures

**Panelist: Thomas Hanke** - EVP, Head of Academic Partnerships, Evotec

**Panelist: Neill Moray Mackenzie** - Partner and Entrepreneur in Residence, ArgoBio Studio

## Korea's COVID-19 Vaccine Development - Strengths and Partnering Strategies

On demand  
Biotech Ecosystem

### Participants

**Presenter: Kevin Kyung-Hwa Huh** - CEO, Korea Innovative Medicines Consortium (KIMCo)

**Presenter: Justis Taejun Cho** - VP, Head of R&D Strategy and Planning Office, SK Bioscience

**Presenter: Jin Won Youn** - Senior VP, Team Leader, Strategy Planning, Genexine

**Moderator: Baik-Lin Seong** - Director General, Vaccine Innovative Technology Alliance (VITAL)-Korea

**Panelist: Justis Taejun Cho** - VP, Head of R&D Strategy and Planning Office, SK Bioscience

**Panelist: Lauren Young Mi Lee** - Head of Global R&D Innovation, Executive VP, Hanmi Pharm. Co.

**Panelist: Jae Woo Lee** - VP Head of Department, Corporate Development, GC Pharma

**Panelist: Jayhyuk Myung** - Executive Consultant, Department of Pharmaceutical and Bio-Pharmaceutical Industry, Korea Health Industry Development Institute (KHIDI)

**Panelist: Joo-Sung Yang** - VP, mRNA Research and Business Development, ST Pharm

**Panelist: Jin Won Youn** - Senior VP, Team Leader, Strategy Planning, Genexine

## Leveraging European biologics expertise and capacity to build on pandemic lessons

On demand  
Biotech Ecosystem

As pharma companies and their global supply partners raced to support the development and scale-up of COVID vaccines and therapies, Catalent looked for opportunities to engage capacity across its biologics network. Because of recent investments in Europe, Catalent was able to leverage its European sites as a part of the solution. Join Mario Gargiulo, SVP Global Operations, Large Molecules, during this fireside chat, where he will discuss how Catalent relied on its sites in Italy and Belgium to support the development and manufacturing of COVID vaccines and therapies for Europe and the world.

### Participants

**Moderator: Linda Pullan** - Founder, Pullan Consulting

**Guest: Mario Gargiulo** - SVP Global Operation, Large Molecules, Catalent Biologics

# SESSIONS

## ON DEMAND SESSIONS

BIO-Europe

October 25–28, 2021  
Delivered Digitally  
Central European Time

---

### Development and manufacture of biopharmaceuticals produced in microbial systems

On demand  
Biotech Ecosystem

Join us for this Fireside chat where we will discuss topics on the development and manufacture of biopharmaceuticals produced in microbial systems. We will discuss the trends in new molecular formats which is one of the current drivers of renewed interest in fermentation technologies along with some of the challenges they pose. We will also discuss considerations that should form part of early process development strategy that can help to plan a program with the end goal in mind.

#### Participants

**Moderator: Julianna LeMieux** - Science Writer, GEN: Genetic Engineering and Biotechnology New

**Guest: Sven Bieli** - Head of Proposals, Microbial Business Unit, Lonza

---

### "(b)(2) or not to be, that is the question" – strategies for patient-centric differentiation through the USFDA 505(b)(2) pathway.

On demand  
Biotech Ecosystem

USFDA 505(b)(2) submissions can be advantageous because they can often lead to faster routes to approval when compared to traditional development pathways, while creating new, differentiated products with commercial value. Jamie and Tim will discuss unique performance insights from the last three years for key molecules approved by this pathway, and reflect on how patient centric drug development has generated commercial value. Further, they will discuss their view on the future direction of industry with regards to the adoption of 505(b)(2) approaches, and the key technological advances that can empower these.

#### Participants

**Speaker: Timothy Pang** - Executive Director, Pharma Consulting, Informa Pharma Custom Intelligence

**Speaker: Jamie Unwin** - Commercial Insights Officer, Nanoform

---

### In conversation with...Austin Jelcick, Taconic Biosciences

On demand  
Biotech Ecosystem

#### Participants

**Moderator: Julianna LeMieux** - Science Writer, GEN: Genetic Engineering and Biotechnology New

**Guest: Austin Jelcick** - Director of Product Management, Taconic Biosciences

---

### In conversation with...Brandon Early and Solomon Babani, ICON

On demand  
Biotech Ecosystem

#### Participants

**Guest: Brandon Early** - VP for Project Delivery, ICON

**Guest: Solomon Babani** - SVP and General Partner, Scientific & Medical Affairs, ICON

## BiotechBikers Zwift and Peloton Rides

07:30 - 08:30  
Networking

Get energized and connect with other [#BiotechBikers](#) - [Register here](#)

We will hold 30-minute virtual bike rides on Peloton and Zwift. Following the ride, we'll all gather for a joint watercooler networking session on Zoom. This Virtual Bike Ride is sponsored by Ipsen. Riders can also support [Global Genes](#), a non-profit organization providing assistance for rare disease patients and their families. Riders and attendees can support Global Genes by [making a donation here](#)

Register for the [ride here](#).

### About BiotechBikers

BiotechBikers brings together "bike-minded" biopharma and life science professionals in a unique networking community based around group rides, meetups and other social events. Visit our [website](#) for more information and join our [LinkedIn community](#) to hear about upcoming rides and activities.

## Live Q&A with Markus Kalousek and Nigel Sheail, Novartis

14:00 - 14:40  
Plenary

### Participants

**Speaker: Markus Kalousek** - Global Head, Search and Evaluation, Novartis

**Speaker: Nigel Sheail** - Global Head, Mergers & Acquisitions and Business Development & Licensing, Novartis

## The next evolution: innovating research, business models, and policy to address the world's healthcare challenges

17:00 - 18:00  
Plenary

During a year and a half during which infectious disease and vaccines were in the spotlight, the majority of work of the life science industry has quietly carried on: research, clinical trials, and deals continued to be done, and products continued to be launched in a huge variety of other therapeutic areas. If biotech and pharma have come to grips with the impact of the pandemic, what are the next big challenges for an industry whose global impact, for better or worse, has been highlighted as never before? Is the industry equipped to make this happen, in terms of people, innovation, and crucially collaboration? What needs to be the next breakthrough in an industry that constantly aims to push the envelop of innovation?

### Participants

**Moderator: Denise Scots-Knight** - Chief Executive Officer, Mereo BioPharma Group

**Panelist: Jie D'Elia** - VP, Business Development, Hematology, Cell Therapy and China, Bristol Myers Squibb

**Panelist: Joern-Peter Halle** - Global Head of Research, Merck Healthcare KGaA, Darmstadt, Germany

**Panelist: Steve Hitchcock** - Head of Research, Takeda

**Panelist: John Young** - CBO, Pfizer

# SESSIONS

DAY 2 - LIVE SESSIONS - 26/10/2021

BIO-Europe

October 25–28, 2021  
Delivered Digitally  
Central European Time

## Speed Networking

11:00 - 11:45  
Networking

Join for 45 minute of conversation with other BIO-Europe attendees. You will join a new breakout room every 5 minutes.

## The speed of life science innovation

15:00 - 15:45  
Biotech Ecosystem

Technologies such as CRISPR and mRNA have been hailed as 'new science' but these therapies are the result of long lab hours, years of clinical development, and intensive research by solo scientists and collaborative teams. This session will consider the fundamental character of the lifescience discovery process. Are there tools that have emerged that ease the 25-year discovery process to something shorter? What role does collaboration and communication play in facilitating advancements? And what modalities emerging now could be the breakthroughs of the future?

### Participants

**Moderator: Ben Bonifant** - Partner, Triangle Insights Group

**Panelist: Robert Garbaccio** - VP Discovery, Preclinical and Translational Medicine, Merck Research Labs, MSD

**Panelist: Bernd Muehlenweg** - SVP, Innovate Strategic Initiatives, Evotec

**Panelist: Antje Kahnert** - Senior Director, Cardiovascular BD&L and Alliance Management, Bayer

## Expanding the partnership pool: how biotech collaboration dynamics are changing

17:00 - 18:00  
Plenary

As the biotech industry and individual biotech companies themselves mature, partnering options are also expanding. At different stages of the drug development life cycle, companies now have options outside of the historical biotech-pharma pair-up. This panel will take a closer look at some of the alternative partnering options that biotech companies now engage with, from translating research from academia to industry, to co-development, to co-commercialization. Join us to hear about collaboration trends that are strengthening innovation and commercial success in the life sciences.

### Participants

**Moderator: Mike Ward** - Global Head of Life Sciences and Healthcare Thought Leadership, DRG, part of Clarivate

**Panelist: Georg Buchner** - Group Head, Business Development, Helsinn

**Panelist: Michael Henderson** - CBO, BridgeBio

**Panelist: Shara Avis Pecoraro** - Manager, Strategic Industry Ventures, Strategic Industry Ventures at MD Anderson Cancer Center

**Panelist: Friedrich von Bohlen** - CEO, Molecular Health

**Panelist: Samuel White** - Senior Director, Commercial Alliance Management, MorphoSys

## Innostars Awards

10:00 - 13:00  
Spotlight

During Bio-Europe Digital, EIT Health will announce the winners of the InnoStars Awards, the first-class talent scout in healthcare for start-ups from Central, Eastern and Southern Europe.

In the [InnoStars Awards](#) competition, each selected team receives €25 000 plus individual mentoring and the opportunity to participate in two European boot camps. EIT Health provides selected teams with potential customers, investors, and partners to validate their product or service. After the four-month programme, 10 teams will advance to the InnoStars Awards Grand Final, where the winner will receive an additional €25 000; the second prize is €15 000 and the third is €10 000.

About EIT Health:

EIT Health is a network of best-in-class health innovators with approximately 150 partners and is supported by the European Institute of Innovation and Technology (EIT), a body of the European Union. We collaborate across borders to deliver new solutions that can enable European citizens to live longer, healthier lives.

As Europeans tackle the challenge of increasing chronic diseases and multi-morbidity, and seek to realise the opportunities that technology offers to move beyond conventional approaches to treatment, prevention and healthy lifestyles, we need thought leaders, innovators and efficient ways to bring innovative healthcare solutions to market.

EIT Health addresses these needs. We connect all relevant healthcare players across European borders – making sure to include all sides of the “knowledge triangle”, so that innovation can happen at the intersection of research, education, and business for the benefit of citizens.

For more information visit: [www.eithealth.eu](http://www.eithealth.eu).

Finalists:

Nanoker Research (Spain)  
Navolab Diagnostics - Theresa Kit (Hungary)  
Poltiss - PhotoBioCure (Poland)  
Appercell (Hungary)  
Neurosalience (Estonia)  
T-Control (Spain)  
Tully - Emotion Management Smart Assistant (Romania)  
ENDOBIOS - E-Chem® (Portugal)  
J.E.M. Tech - Videocardiograph (VCG) (Italy)  
AIMED - LEDD (Romania)
