

## Unlock the power of market data with IGM's API feed

IGM's API data feed provides you with unparalleled access to real-time, independent, and actionable intelligence across global credit, rates, and foreign exchange markets. Designed for professionals who demand precision and speed, our data feed is your gateway to smarter insights, faster decision-making, and a competitive edge.

### What we deliver

- Real-time deal data – collated via IGM's network of active DCM practitioners
- Terms and conditions data updated incrementally from whisper through mandate, price talk/IPTs, guidance, bookbuild to final terms
- Unique market validated data points include New Issue Concession, Books, IPT to Pricing, and Distribution statistics offering a leading edge in relative value or trend/sentiment analysis
- Over 120,000 corporate bonds, each up to 80 data points. 25 year history
- Corporate, financial, SSA, covered and a further 22,000 securitization issues
- Investment grade, high yield and emerging market bonds archived from the U.S., EMEA and APAC
- China bond data via our teams in HK, Shanghai and Singapore

### How it works

- RESTful API makes calling our granular content simple using standard web service practices
- Ingest at your preferred cadence to enrich your platform (internal/external), or data focused research and analysis needs
- Take a look at our API docs to find out more and try a few requests: <https://api.informagm.com/swagger/index.html>
- Access up to 80 data points including NICs & Books, IPTs to Priced, and distribution statistics
- 25-years of historical data

For an even deeper dive, you'll need a secret token and company key.

Request your [free trial here](#) and one of our team will be in touch to set you up with access.
