

### Welcome to IMpower Edge

10:10 - 10:15

IMpower Edge: Sustainable Innovation Task Force

What you'll get out of this new digital experience designed to optimise your time

### Part 1 - Sustainable Data, Risk & How to avoid greenwashing?

10:15 - 11:05

IMpower Edge: Sustainable Innovation Task Force

Hear from top sustainability and environmental investment experts on unleashing innovation for sustainability and growth. Learn what you need to start doing today:

- Workshop Moderation and Introduction - Making sense of what's recommended, mandated and increasingly expected across US, Europe and UK on Sustainable Data
- Where are we now? Upcoming ESG regulation under the spotlight: How new EU and UK ESG regulations across the industry impacts your whole business. Comparing different regulatory approaches and the implications for managing a global business. *Policy experts offer their insights on the new climate-related disclosure regulations proposed for UK companies and how this could affect investment managers.*
- A deep dive into how investors are managing new opportunities, ever-changing expectations, and the dangers of greenwashing. *This session explores some of the most urgent ESG questions facing fund management today.*
- CEOs on innovation and closing the Climate Action Gap. *What are key asset management leaders advocating for future-proofing their businesses in the face of ESG risks?*
- Leaders' Future Business Strategy and the transformation of ESG into a mainstream business with talent and infrastructure. *Looking at how global leaders approach talent acquisition and retention as well as deciding on the best investments in data, analytics and reporting infrastructure to allow for full ESG integration.*
