ACCESSING OUR LOADING DOCK

The entrance to the Loading Dock is located on **Post Street** in between the Williams-Sonoma and Apple Store.

The Loading Dock clearance height is 12' 3". The Dock can only allow Vans or Straight Trucks up to 26'.

Semi Trucks and Trailers must park their vehicles on the street and deliver their items down the ramp.

(See SFMTA Permit Process for Post St. meters)

Load-in is available **after 12:00 PM** from **Monday through Friday or Weekends**.

All other time frames must be scheduled in advance through your Event Manager. Any changes, or delays in your schedule need to be sent to the manager to ensure that they do not conflict with other hotel related deliveries that are currently scheduled.

UNLOADING YOUR VEHICLE

Check-in with Security and provide company information and delivery location.

Our Event Services team will assist with further instructions.

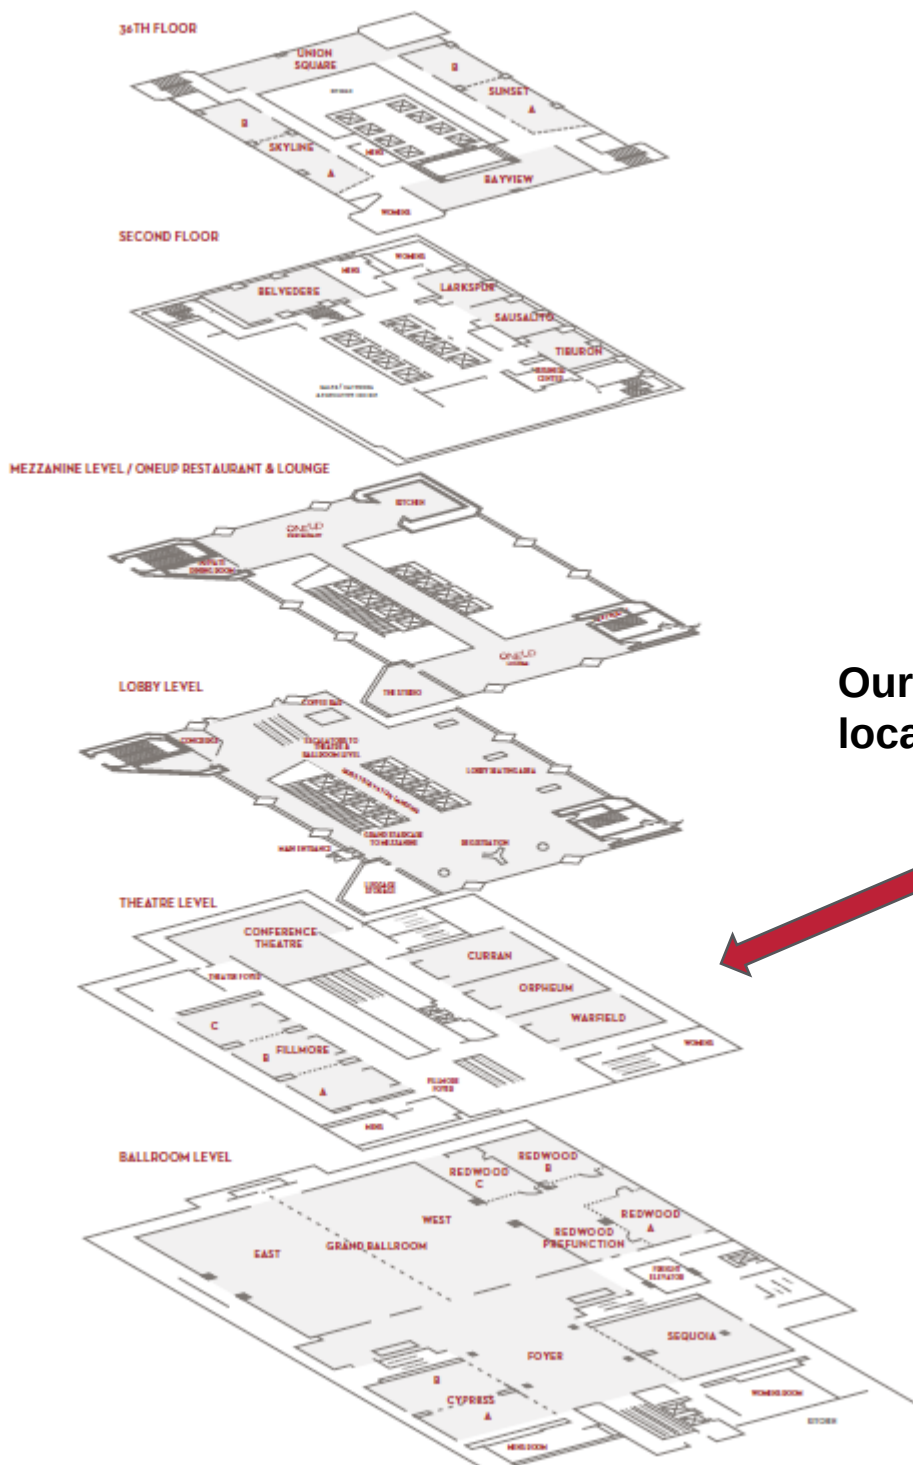

All vehicles **MUST** be relocated after load in/out. See SFMTA.com for **parking options**.

Unloading Heavy items? The delivery truck must have a lift gate or provide a fork lift to unload at the Loading Dock.

All moving equipment such as dollies, flat beds, etc. should be supplied on own.

Fork lifts are not allowed to be used inside the hotel Freight Elevator.
