Dear [Approving Manager],

I'd like to request your approval to attend the **MSc Marine Technical Superintendent**, starting on 16 September 2024 with an application deadline for 9 September 2024.

This **prestigious online master's programme** is delivered by the UK's leading centre for maritime and engineering courses in partnership with Lloyd's Maritime Academy. I will be learning from the top experts in the industry about the topics and issues that relate directly to our priorities and current challenges.

For instance, by the end of the programme I will be able to:

- Explain the essential role and responsibilities of the marine technical superintendent in the safe and effective operation of a vessel or offshore facility.
- Evaluate the full range of specialist knowledge and skills required to support the technical operation and maintenance of a vessel or offshore facility.
- Analyse core management and leadership skills needed for managing self and others in the marine technical management environment.
- Show a critical awareness of systems and equipment compliance with international conventions, including obtaining and maintaining necessary certificates.
- Create systematic maintenance plans for various vessel types and scenarios, including the process of dry docking.
- Demonstrate extensive knowledge of project management principles, including the analysis and critical appraisal of projects in terms of time, cost, and quality.

While in the programme, I'll have the opportunity to pick the brains of like-minded students and colleagues from across the globe, and some of the most respected experts in the sector.

Here are the modules I believe would be most valuable to me:

- **Module Title**
- **Module Title**
- **Module Title**

As a student, I will return with all presentation materials. Therefore, I'd like the opportunity to review the materials with you and discuss how we can best leverage my time in this master's programme.

Thank you for considering my request. I look forward to discussing the MSc Marine Technical Superintendent in more detail.

Sincerely,
[NAME]
