Creating value through reporting

We're helping organisations to align capital allocation and corporate behaviour with sustainable value creation. This means understanding how major risks such as climate crisis, resource scarcity, demographic change and inequality will affect them.

We also help businesses build leading reporting strategies, identify meaningful targets and KPIs, embed ESG in systems and processes, and account for ESG risks in financial statements.

The **O.I.B.R. Foundation** is the legal, multi-stakeholder entity that has replaced the Italian Network for Business Reporting (**NIBR**), which was founded on February 2012.

The Italian Foundation for Business Reporting (O.I.B.R.) was formally established in June 2019 and is a body dealing with the elaboration and dissemination of guidelines, studies and researches, principles and standards with a technical and practical orientation in the field of business reporting, non-financial disclosure, sustainability and integrated reporting, TCFD recommendations, and intangibles and intellectual capital statement. It gathers around 50 Italian stakeholders going from large listed companies to SMEs and Universities, professionals and managers, financial analysts and consultants.

The O.I.B.R. is a legally recognised Foundation and is a market-led organization open to all the Italian stakeholders, inspired by an inclusive approach, and with an articulated governance able to guarantee all the interests at stake. It is a non-profit entity, with no commercial engagement, and that operates only in the public interest (www.fondazioneoibr.it – info@fondazioneoibr.it).

The O.I.B.R. officially represents the WICI Global Network in Italy, and it has close collaborative relationships with the IIRC, GRI and SASB

SESSION “COUNTRY SPOTLIGHT: ITALY” December 1st, 2020, 3.30-4.30pm (CET)

Italy is a G-7 and G-20 country and has a long-standing tradition in accounting and reporting, being the place where double-entry bookkeeping was invented. However, in many respects the Italian non-financial and integrated reporting practices are relatively little known internationally. Accordingly, through very high and senior speakers, this Session aims to illustrate the advanced level of the Italian non-financial regulation and integrated accountability, illustrating some of the most cutting-edge experiences and achievements in an Integrated Thinking-Reporting and Sustainable Value Creation perspective.

- **Prof. Stefano Zambon** – Secretary General, O.I.B.R. Foundation
- **Prof. Anna Genovese** – Commissioner, CONSOB (Italian Stock Exchange Regulator)
- **Gabriele Galateri di Genola** – President, Generali Group
- **Michele Crisostomo** – President, Enel
- **Gian Maria Gros-Pietro** – President, Intesa Sanpaolo Group
- **Andrea Di Segni** – Managing Director, Morrow Sodali Italy
