### Crafting your 6 minute pitch with 6 slides

In your pitch, you should identify yourself, your company, your role within the company, a brief overview of what your company does and what your next milestone will be. (partnership, raise capital, etc.)

Below is an example format for your presentation, it is not required that you follow this format.

1. Cover slide with company name, presenter name and contact information
2. Intro slide with elevator pitch – Overview
3. Unique MOA action slide – Set-up
4. Compelling data slide – Proof
5. Additional compelling data slide - Proof
6. Investment opportunity slide– Key Messages and Ask

What should I/should I not disclose?

How do I differentiate myself?
