Balancing act – the opportunity set vs macroeconomic pressures

11:20 - 11:50
Venture Capital Summit

How are LPs and GPs navigating the Asian geo-political environment? How are they positioning themselves to source the best opportunities? With more technological innovation and digitalization coming out of Southeast Asia, how are LPs and GPs safeguarding their positions in markets vulnerable to economic shocks and currency devaluation?

Due diligence – a flight to what is known

11:20 - 11:50
LP/GP Relations & Fundraising Summit

How has over a year of digital communication impacted relations and interactions between LPs and GPs? Has virtual due diligence led to better communication and information disclosure between them? How have GPs approached compliance and what are the challenges they have faced? The power of referencing – how have GPs used feedback from LPAC members, past LPs, and previous fund performance to mitigate the concerns of new investors?

All about the exit boom

11:55 - 12:25
Venture Capital Summit

Is the increasingly favorable exit environment helping to solve Asia's liquidity challenge? With new liquidity options emerging, are the exits channels predictable and diversified enough for LPs? What work do GPs need to do to successfully convert exits into liquidity for investors? Comparing and contrasting exits across the region - how have different types of deals been executed and what makes a best performer?

Physical vs hybrid vs digital - is digital due diligence here to stay

11:55 - 12:25
LP/GP Relations & Fundraising Summit

What are the benefits of conducting due diligence virtually? To what extent have LPs gotten used to digital communications? What would due diligence look like now that travel restrictions are being lifted in the aftermath of the pandemic?

SPACs: a new exit channel or more competition for existing deals?

12:30 - 13:00
Venture Capital Summit

How is the growing popularity of SPACs impacting the traditional exit model, what are the opportunities and challenges for the different strategies? Sourcing investments and capital - what does a SPACs subscription order look like, how are the funds allocated and what would the impact on regular fundraising be over time? How sustainable is the SPACs boom - is the structure impacting the quality of deals? Monitoring the boom - how are exchanges, regulators and LPs weighing up the opportunities and risks the growth of SPACs present?
