

PRESS RELEASE

For Immediate Release

**TIDES USA 2025: The Premier Forum for Oligonucleotide & Peptide Therapeutics Returns to San Diego**

San Diego, California – March 6, 2025 – Informa Connect, a leading provider of life science industry events, is pleased to announce the return of TIDES USA 2025, taking place from May 19-22, 2025, at the Manchester Grand Hyatt San Diego.

**TIDES USA 2025: Bridging Research to Reality**

Date: May 19-22, 2025

Location: Manchester Grand Hyatt San Diego, San Diego, CA

TIDES USA is North America's leading forum dedicated to advancing oligonucleotide, peptide, mRNA, and genome editing therapeutics. The event will bring together over 1900 global experts, including industry pioneers, leading scientists, and business executives, to exchange ideas, showcase breakthrough innovations, and accelerate the path from discovery to commercialization.

- Oligonucleotide Chemistry, Manufacturing & Controls – Next-gen analytical techniques, CMC strategies, and scalable manufacturing solutions
- Oligonucleotide Discovery, Preclinical & Clinical – Optimized candidate selection, drug-like properties, and regulatory strategies
- Peptide Chemistry, Manufacturing & Controls – Process efficiency, regulatory navigation, and QC advancements
- Peptide Discovery, Preclinical & Clinical – Delivery system innovations and accelerated discovery pipelines
- mRNA Therapeutics/Vaccines & Genome Editing – Novel mRNA therapeutic applications beyond COVID, Advanced delivery technologies and genome-editing breakthroughs
- Drug Delivery Innovations – Targeted delivery solutions, oral peptide formulations, and device-based strategies

**Keynotes & Featured Speakers**

Attendees will gain insights from an exceptional lineup of speakers, including:

- Lotte Bjerre Knudsen, PhD – Chief Scientific Advisor, Novo Nordisk A/S
- Hiroaki Suga, PhD – Professor of Chemistry, University of Tokyo
- Sam Tsimikas, MD – SVP, Global Cardiovascular Development, Ionis Pharmaceuticals
- Kristy Wood, PhD – SVP, Technical Operations, Intellia Therapeutics
- Muthiah (Mano) Manoharan, PhD – SVP, Drug Innovation, Alnylam Pharmaceuticals

Key highlights of the conference include:

- Cross-Industry Innovation Exchange – Engage with thought leaders across multiple disciplines to spark new collaborations.
- Expert Scientific Content – Gain direct access to renowned experts addressing the most pressing challenges in oligonucleotide and peptide therapeutics.
- Showcase Your Research – Present your latest breakthroughs through poster presentations and technology showcases.
- Advanced Technology & Partnering – Explore cutting-edge solutions in our comprehensive exhibit hall and digital networking platform.
- San Diego: A Life Sciences Hub – Connect with over 1,200 biotech companies in one of the world’s leading biotech regions.

**"TIDES is a ‘must-go’ conference for scientists working in the peptide/oligonucleotide area"**

- *George Wang, Analytical Chemist, Bristol-Myers Squibb*

Informa Connect are thrilled to welcome you to San Diego for this “must-attend” event.

Registration information for TIDES USA is available [online](#). Early bird rates are available until 17 May 2024.
